## GEDA 1200ZZP RACK & PINION TRANSPORT PLATFORM

Shown above in goods only mode

Three models are available:

<b>A platform</b>	<b>Capacity</b>	<b>1500kg/7 person</b>
	<b>Platform dim.</b>	<b>2.0 x 1.40m</b>
<b>B platform</b>	<b>Capacity</b>	<b>1200kg/7 person</b>
	<b>Platform dim.</b>	<b>2.6 x 1.40m</b>
<b>C platform</b>	<b>Capacity</b>	<b>1000kg/7 person</b>
	<b>Platform dim.</b>	<b>3.1 x 1.40m</b>

**PLEASE SPECIFY PLATFORM AND MODE  
REQUIREMENT AT TIME OF ORDER**

A versatile single mast rack and pinion transport platform, with 3 platform configurations available.

The hoist can either be used as materials only at 24m/min, or with the addition of a roof piece, it can be used to transport personnel at a speed of 12m/min.

An added bonus is the low pull value of the tie, which allows the unit to be tied to scaffold.

Each unit is equipped with an overload sensor and side protection rails on the unloading ramp for safety.

Each platform has the ability of three way entry, and is best suited to sites where access is limited for loading.

A simple solution to the modern problem of carrying heavy goods within a minimum space

## TECHNICAL SPECIFICATIONS

Max carrying capacity	A = 1500kg / 7 person B = 1200kg / 7 person C = 1000kg / 7 person
Average lifting speed	Material mode - 24m/min Passenger mode – 12m/min
Power requirement	3 phase and neutral 415 volt 32 amp (pp)
Max. working height	100m
Platform dimensions	Dependant upon platform see opposite
Weight of base unit	A = 1272kg B = 1343kg C = 1414kg
Weight of mast section	79ka
