GEDA 300Z **RACK & PINION GOODS ONLY HOIST**

A versatile rack and pinion goods hoist with applications throughout the construction, renovation and building trades.

The hoist is operated by a simple push-button control. Each unit is equipped with an overload sensor for safety and a hinged loading ramp which is electrically interlocked.

The standard configuration of the platform for unloading has the platform swivel 90° into the scaffold or face of the building. Alternatively the platform can be supplied with a double-entry cage (straight-through) upon request.
