## SCAFFOLD HOIST

The Imer **"ES 150"** has been designed and manufactured for professional users on building sites.

Technical features and quality of the components applied ensure high reliability and safety.

As part of our range we also supply the ET 200 fixed bracket, and TR 225 swivel bracket scaffold hoists.

These hoists are supplied with upper limit switches with positive action thrust spring. The motors are protected against the phenomenon of self-energising.

The wire rope drum is crosswise to the mounting bracket, this feature prevents the wire rope accumulating on one side of the cable drum, improving winding smoothness.

### TECHNICAL SPECIFICATIONS

	ES 150	ET 200	TR 225
Maximum capacity	100kg	100kg	100kg
Angle of travel	10°	20°	20°
